### Sub: General Observations

Dear Sirs,

At the outset, on behalf of my NGO NAGAR, I would like to thank you and compliment you on holding a very structured meeting of the Zone I TVC on 16.8.2018. It was also very useful to see the PPT presented and receive all the relevant documents as this helped all members to understand the details of the Street Vending Act.

We have taken note of the Guidelines presented in your PPT regarding No-Hawking Zones and Hawking Zones and will keep these in mind while going on our site visits to the roads lists given to us for all five wards of Zone I. However, we had concerns about the definitions of Hospital, Educational Institution and Place of worship and you had kindly requested us to give our suggestions for your consideration. We have given these in a separate note.

Also discussed was the question of food items. NAGAR believes all food items which are allowed to be sold by the hawkers must be only after due registration with F.S.S.A.I. We have given this in a separate note.

Items such as Registration of hawkers, their Applications Forms, Domicile Certificates etc. were also discussed. We would like to clearly state that NAGAR feels that this is not an area which we would like to be involved and believe it is a matter to be finalised between the Hawker groups and the MCGM. Whatever details were given to us we have accepted in good faith.

Yours sincerely,

**Nayana Kathpalia**  
Member, ZONE1 TVC
