Sub: Definitions of Hospitals, Educational Institutes, Place of Worship

Dear Sirs,

As suggested by you, I give below suggestions for your consideration regarding definitions of Hospitals, Educational Institutes and Places of Worship.

1. A **Hospital** should be defined as one duly registered with the relevant authority, having a minimum of ten In-Patient beds, an Operation Theatre, Intensive Care Unit, Facility for Overnight stay and 24 x 7 availability of Doctors and Nurses.
2. An **Educational Institution** should be defined as one duly registered with the relevant authority. This would include Universities, Degree Colleges – Applied Art & Architecture, Commerce, Science and Arts, Under Graduate Colleges, Engineering Colleges, and Schools which include Elementary, Secondary and Junior Colleges.
3. **Place of Worship** should be defined as one duly registered with the relevant authority.

Kindly note only one vendor per commodity should be given a 1mx1m pitch within the restricted area of 100m. Commodities permitted should be according to the requirement of the denomination of the place of worship. E.g. 1 vendor for candles / sandalwood/ flowers/ aggarbattis/ flowers/ dry coconut.

We request you will take up this issue at the next Zone I TVC meeting.

Thanking you,

Yours sincerely,

Nayana Kathpalia
Member, ZONE1 TVC
